

Rajat Bharti

Senior Web Developer · AI Automation Engineer

Bengaluru, Karnataka, India rajatbharti856@gmail.com rajatbharti.com in/rajat-bharti-13ab9715b

SUMMARY

Senior Web Developer with 5+ years of experience building high-performance websites, scalable custom web applications, and AI-driven automation systems. I specialize in WordPress, Shopify, Webflow and modern CMS platforms — but my work goes well beyond traditional site building. I design and develop custom web apps, automate business workflows, and implement AI-powered solutions that cut manual work and improve operational efficiency.

EXPERIENCE

AI Product Developer · ProductOS

Feb 2026 — Present

Full-time · Bengaluru, Karnataka, India · Hybrid

- Own the design system and end-to-end product QA across an AI-native product surface.
- Run cross-functional delivery between product, engineering and go-to-market so releases land on schedule.
- Build internal automation and tooling that removes manual steps from the release and reporting loop.
- Translate founder intent into concrete specs, acceptance criteria and shipped increments.

Senior Web Developer · Virusha Technologies

Oct 2023 — Present

Full-time · Noida, Uttar Pradesh, India · Remote

- Architecting and developing responsive, high-performance websites using WordPress, Shopify and Webflow.
- Building custom web applications tailored to specific business requirements.
- Designing and implementing AI-powered automation workflows to streamline operations.
- Integrating third-party APIs, payment gateways, CRM systems and marketing tools.
- Developing workflow automation systems that reduce manual processes and increase efficiency.
- Creating conversion-focused landing pages and sales funnels.

Junior Associate Website Developer · AffinityX

Oct 2022 — Sep 2023

Full-time · Pune, Maharashtra, India · On-site

- Creating and maintaining GoDaddy WordPress websites in adherence to brand guidelines.
- Implementing custom themes, plugins and design elements.
- Conducting thorough testing to ensure optimal website functionality, addressing performance and compatibility issues.
- Engaging with GoDaddy to understand project requirements, providing regular updates and incorporating client feedback.
- Maintaining detailed project documentation and release notes.

WordPress Developer · Blue Barrows

May 2020 — Sep 2022

Internship · Noida, Uttar Pradesh, India · On-site

- Designing and creating micro websites.
- Designing and developing company web pages.
- Improving the UI/UX and overall customer experience on the website.
- Optimizing websites for SEO and page speed.
- Handling the complete CMS of the website from the backend.
